

EnergyNotes

FOR YOUR BUSINESS

Save up to \$500 a year

Today, smart technology is everywhere. And now, smart technology can help make your business' energy bill even lower. With FPL's free smart tools like the Online Business Energy Dashboard, you can now:

- » See how much energy your business is using by the hour, the day and the month
- » Understand how much energy you use over time
- » Forecast and budget your energy use

And, when you schedule a Business Energy Evaluation, our energy experts can help you save up to \$500 a year on your energy bill. Schedule your free Business Energy Evaluation online today:

A special source of energy

This month, we honor the critical role our lineworkers play in delivering your business affordable, reliable and clean energy. These highly-skilled professional men and women are dedicated to working safely every day to make sure your lights are on. We thank them for their hard work and commitment – it takes a special source of energy to bring your business the energy you can count on in good weather and bad.

Energy Answers

Q Is it more energy efficient to turn off the A/C in our office or to leave it at 78 degrees for the entire weekend?

— Jackie S., Miami

A It is more energy efficient to turn off the A/C in the office over the weekend, but do so only if permitted by the building and air quality codes your business must adhere to. To learn more, visit:

Streetlight out? Let us know

We continuously work to keep your lights on – including those outside of your business. If you notice a problem with streetlights, please let us know by calling 800-4-OUTAGE (800-468-8243) or reporting it online.

- Please have the following information ready:
- » Location or the 11-digit number on the streetlight pole
 - » A description of the problem
 - » Your contact information

Remember, not all streetlights are maintained by FPL.

In compliance with Florida law, we annually publish these procedures so customers and the general public know how to report inoperative or malfunctioning streetlights.

Can you dig it? Call 811

Before reaching for a shovel, call 811 to protect yourself from unintentionally hitting underground power lines. It's free, it's the law and it will help you stay safe.
